

### **CALIBRATION CERTIFICATE**

Certificate Number

44043200704044

Model:

S3100

Serial Number:

200704044

Sensor ID:

200704-041

Calibration Location:

1221 Disk Drive, Medford, OR 97501

Date of Calibration

July 31, 2020

Next calibration on this

instrument is due: July 31, 2021

Calibration Method

Calibration of this instrument has been accomplished as defined in ISO 21501-4 2018; Light scattering airborne particle counter for clean spaces, All work performed is in accordance with Lighthouse Worldwide Solutions, Quality Manual P/N 714252800-1. Reproduction of this certificate and accompanying documentation is prohibited without the expressed written permission of Lighthouse Worldwide Solutions. All

records of work performed are maintained by Lighthouse Worldwide Solutions.

Traceability

The Standards of the Compliant Calibration Laboratory are traceable to the International System of Units (SI) through the National Institute of Standards and Technology, and are part of a comprehensive measurement assurance program for ensuring continued accuracy and measurement traceability within the level of uncertainty reported by this laboratory. The unique laboratory calibration number identified above shall be used in referencing metrological traceability for artifacts identified only in this certificate.

Uncertainty

The reported uncertainty is based on a standard uncertainty multiplied by a coverage factor of k = 2, which provides a confidence level of

approximately 95%. The values and test criteria are applied using Simple Acceptance; Shared Risk approach.

Results

This certifies the above named instrument conforms to the original specifications in effect at date of manufacture and test.

Environmental Conditions

Ambient temperature

72.0 F

Relative humidity

44.0 %

**Test Equipment**
